UPLOAD

ezescan.

making digital work

The EzeScan UPLOAD module is separately licensed and can be activated within the EzeScan application. EzeScan UPLOAD has been developed as a tool for processing EzeScan KFI output (image and index data) into an EDRMS system, a database or to a SMTP Server. The EzeScan UPLOAD module can also be set to run as a scheduled task (or as a windows service using SERVER ROUTING) to perform OCR PDF conversion and uploading to its respective system. This allows more time for the operator to perform scanning and indexing tasks.

The UPLOAD module natively connects to the following systems:

- Alfresco Community Edition 3.4
- DocuVantage OnDemand
- EzeScan Archiver
- HP TRIM Context 5.X / 6.X /7.X
- Interwoven Worksite 8.X
- Infovision InfoXpert 8.0

- Microsoft SharePoint 2007 / 2010
- OpenText EDOCS DM 5.0 / 6.0
- OpenText LiveLink ECM 9.7.1
- Objective DM 6.3 / 7.X
- Xerox DocuShare 2.2 / 3.X to 6.X

Other upload destinations also supported include ODBC compliant databases (e.g. MS SQL or Oracle), FTP, SMTP Email, WebDAV compliant systems and Act by Sage. The UPLOAD module can populate custom metadata fields (string or date formats) and also has the ability to store images into different folder / file paths.

The EzeScan Advantage

EzeScan provides fast, cost effective business solutions including simplified back scanning, automation of invoice processing, forms data extraction, mailroom/correspondence automation and highly integrated EDRMS imaging. Compatible with all major scanners and with thousands of installations in Australasia, North America and the UK, EzeScan is your ideal production batch capture solution.

Who is Outback Imaging?

Outback Imaging is a research and development company specialising in document capture and business process automation. EzeScan is Outback Imaging's flagship document capture product suite. Our products enable clients to substantially reduce the cost of deploying data capture and information processing solutions for unstructured, semi structured, structured hardcopy and electronic documents including email.

To request an evaluation copy of EzeScan or to see a product demonstration please contact your local EzeScan representative.
